

Seedlist 2003/2004

This page was published just to provide more information about our Seed Exchange scheme. A look & see seedlist, as someone has already nicknamed it...

To obtain seed from our Seedlist you must be a member of the Geraniaceae Group (see How to join us).

Seed Donors will get the Seedlist automatically. The other members have to ask for it writing to Richard Clifton, 7 Crabble Road, Dover, Kent CT17 0QD, England

Notes on Seeds

We accept the name under which the seed is supplied by donors. No guarantee can be offered about the correct identification of the parent plant.

Seed from Cultivars doesn't usually come true.

Seed is assumed collected from cultivation unless otherwise stated.

Note on List Format:

? = unknown species or doubtful details

Special = from particular forms or sources
